▼ Overview

Instructions

This course requires your school to create a session and monitor your progress through the learning process.

Participants **must** be part of a session **identifying their school as the venue** for this course to enable NESA to recognise the learning.

Instructions to create a session are located on the MyPL (<https://education.nsw.gov.au/teaching-and-learning/professional-learning/mypl/Learning-authors-and-session-support-officers#Session1>) website.

A link to course content and information is provided once the session is created and the participant is enrolled.

The participant is required to complete all 4 assessment tasks outlined in the attached document.

Course content

Content for this course is delivered in 4 tasks

The recommended time frame to complete is indicated in brackets. Any additional hours spent on this course need to be recognised as Teacher Identified Professional Development (TIPD).

Task 1: Prepare draft procedures (1 hour)

This involves viewing information about the main changes of the Sport and Physical Activity Policy, the purpose of the procedures, how to find them and overview of content. Participants complete questions about communication processes within the school and key stakeholders for sport and physical activity. They then complete the first draft of the procedures for the organisation of sport and physical activity.

Task 2: Meeting with principal or nominated supervisor (30 minutes)

This involves discussing the draft procedures for the organisation and management of sport and physical activity and the key stakeholders involved in the communication plan.

Task 3: Finalisation of procedures (30 minutes)

This task involves incorporating feedback from the principal and then working with a colleague to critique the final procedures for the organisation and management of sport and physical activity to be submitted to principal for approval.

Task 4: Communication across the school (1 hour)

The last task involves implementing the communication plan developed during tasks 1 and 2 so all staff are aware of the procedures for the organisation and management of sport and physical activity.

✓ Provide the reason(s) why you have developed this course

This course was developed to support the Department's revised Sport and Physical Activity Policy 2015 new mandatory requirement for schools to produce school-developed procedures for the organisation and management of sport and physical activity.
